

LOADING ACTIONS

1. To load your actions, make sure actions is visible in the toolbar. This will look like a play button. If you cannot see the actions tool, then go to window and click on the actions in the drop down list.

2. When you click on the play button of the actions tool, a list will pop out and at the top of the list will be three lines, often referred to as the 'hamburger'. Click on the hamburger icon and a drop down list will appear with a load actions.

3. Click on the load actions and locate where you have put the downloaded file on your computer. Select the action set and click 'open'.
