

Buddies' Scheme 2026/7

This year's Buddies' Scheme is a Triptych Challenge
– a set of three images which work together

This is your invitation to sign up to this year's Buddies' Scheme. You will be paired with one or two other people to work on a team project. Together you will plan the theme, the photography, the editing and the final presentation of your Triptych.

This is a chance to learn from one another by working together to produce a triptych to show to the club in February. All three images must be on the same theme, and should work together to form a cohesive set of images which work both individually and as a group. You may choose to add texture or to be creative, or you may choose a more traditional approach. It is entirely up to you to decide with your buddies how you would like to approach this challenge.

We would prefer people to sign up before September, but can always accommodate latecomers to the scheme. Please email programme@stives-photoclub.org.uk to take part.

Edit Challenge – new for this season

How are your editing skills? Could you make a difference to an image like this?

At the start of the winter season, we will provide you with a choice of images to work on at home. We would like to see how you edit one or more of these. You can choose your crop, change colours, lighting, add elements to the image and be as creative as you like!

To help with this we have organised a post-processing workshop on 15th September, where members of the club will be on hand to demonstrate Photoshop, Lightroom and BeFunky.

The results of your efforts will be shown at the meeting on 10th November.

This is a new initiative, and we hope that you will take up the challenge so that we can all learn from the resulting images and enjoy looking at the different approaches. Please have a go!
